Seeds and Supplies 2021

www.gerriegardencentre.com

Greetings,

As another year comes to a close, we count our many blessings. We have seen events and changes around the world that we have not experienced before. We realize we are not in control of life or the future. We know there is a sovereign, unchanging, merciful God, who oversees and is in control of all things. As in Noah's day he provided an ark to save mankind from judgment of sin, today he provides salvation through Christ for the coming judgment.

So again, we hope and plan for another seedtime and harvest, realizing all we have is a gift from above. As things continue to change, some older proven varieties have gone and new ones are added. Feel free to contact us with questions or for quotes.

We thank you for past business and plan to serve you again for your gardening needs. We wish each one a great 2021 season!

The Gerrie Family

SAFE SEED PLEDGE

*"Agriculture and seeds provide the basis upon which our lives depend. We must protect this foundation as a safe and genetically stable source for future generations. For the benefit of all farmers, gardeners and consumers who want an alternative, **we pledge that we do not knowingly buy or sell genetically engineered seeds or plants.** The mechanical transfer of genetic material outside of natural reproductive methods and between genera, families or kingdoms poses great biological risks, as well as economic, political and cultural threats. We feel that genetically engineered varieties have been insufficiently tested prior to public release. More research and testing is necessary to further assess the potential risks of genetically engineered seeds. Further, we wish to support agricultural progress that leads to healthier soils, genetically diverse agricultural ecosystems and ultimately healthy people and communities."*

GREEN BEANS

approx. 1700-1900s/lb

Provider	52 Day, Popular bean, 6" pods, with fairly heavy yields. Dark seed, germinates in cool soil.
Jade *	53 Day, extra long 6-7", straight, slender pods, exceptionally rich green colour. Heavy yielder.

DISCLAIMER

Gerrie's Garden Centre believes in delivering a quality product to our customers. However seed and/or plants are live products and depend on many important grower skills including, planting time, seed depth, type of soil, proper use of fertilizers etc, and weather conditions, which are out of our control. By acceptance of our products the buyer agrees not to hold Gerrie's Garden Centre responsible. At any time, Gerrie's Garden Centre will not be liable for more than the purchase price of the product.

Please note all descriptions and information in this catalog are based on our observations and/or from other sources. Actual yields and characteristics will vary according to weather conditions, soil types, etc.
