Seeds & Supplies

www.gerriesgardencentre.com

Greetings

There is something about working in our gardens that lifts our spirits, a stability that grounds us no matter what we are facing in life. For some people, this has been generations of growing their own food, and for others it's a new found joy. The miracle of a new plant, the fun of watching it grow, and the satisfaction of reaping a harvest, all point us to our Creator who made all things good!

At this point supply is looking good for next season, although there are several varieties that are limited. We plan to bring in more of other varieties to cover those. We encourage you to get your order in early. The prices have definitely increased somewhat, it seems that's the story everywhere! We continue to be competitive, and keep them as affordable as possible. Many things are out of our control, but we look forward to serving you the best that we can!

The Gerrie family and staff

7646 Colborne St. Elora ON N0B 1S0

Early order discount:

- Jan. 10, for 5% off vegetable and flower seeds

Order Form:

- please mark if and when you would like your early seeds (onions, tomatoes, peppers, broccoli, cabbage, head lettuce etc.) Also specify if you would like soils with them.
- Please check the box of your choice:
“No substitutes/cancel item” (if the item arrives in time for a later delivery, we will send it then; if your order is otherwise complete the item will be cancelled.)
“May substitute” (if order is otherwise complete, we will put in a similar variety).

If not checked we will use our own discretion.

Order Cut off date for March delivery:

- Feb 22 (orders after this will be delivered late Mar and April)
- All add on orders after Feb 22 will be a new order with a separate delivery fee.

Invoicing:

- We will send the invoice when the total order is complete. Payment is preferred by cheque or e-transfer.

Retail store:

- The retail seed store will open approximately Mar. 20.

Delivery schedule: (approximate dates)

- Early Seeds: Jan. 20 to Feb. 24
- Main seeds, soils, fertilizers etc.: Feb. 28 – Mar. 23
- Onion sets, Seed potatoes, late orders: Mar. 23 – Apr. 15
- Berry plants: approximately end of Apr. - early May

The LORD *is* my shepherd; I shall not want. He makes me to lie down in green pastures; He leads me beside the still waters. He restores my soul; He leads me in the paths of righteousness For His name's sake. Yea, though I walk through the valley of the shadow of death, I will fear no evil; For You *are* with me; Your rod and Your staff, they comfort me. Psalm 23:1-4

DISCLAIMER

Gerrie's Garden Centre believes in delivering a quality product to our customers. However, seed and/or plants are live products and depend on many important grower skills including, planting time, seed depth, type of soil, proper use of fertilizers etc, and weather conditions, which are out of our control. By acceptance of our products the buyer agrees not to hold Gerrie's Garden Centre responsible. At any time, Gerrie's Garden Centre will not be liable for more than the purchase price of the product.

Please note all descriptions and information in this catalog are based on our observations and/or from other sources. Actual yields and characteristics will vary according to weather conditions, soil types, etc.

SAFE SEED PLEDGE

"Agriculture and seeds provide the basis upon which our lives depend.

*We must protect this foundation as a safe and genetically stable source for future generations. For the benefit of all farmers, gardeners and consumers who want an alternative, **we pledge that we do not knowingly buy or sell genetically engineered seeds or plants.** The mechanical transfer of genetic material outside of natural reproductive methods and between genera, families or kingdoms poses great biological risks, as well as economic, political and cultural threats. We feel that genetically engineered varieties have been insufficiently tested prior to public release. More research and testing is necessary to further assess the potential risks of genetically engineered seeds. Further, we wish to support agricultural progress that leads to healthier soils, genetically diverse agricultural ecosystems and ultimately healthy people and communities."*
